Workshop (CA-I)

The Joy of Creativity: practical insight into your True Self (3 hours)

In this workshop, you will solve puzzles, discover your own attitudes, and learn to understand what affects our cognition personally and socially. You will learn how to “enhance” your intuition, your cognitive abilities, and your general aptness for solving complex problems.

Workshop (CA-II)

Creativity at work: commitment, compliance, teamwork, and orchestration (3 hours)

In this workshop, you will understand how personal creativity can be integrated in your teamwork. If you are creative in your work, you will understand your own creative value, and where it comes from. If you are managing a creative team, you will learn how to respect creative roles and creative value of the team members.

Workshop (CA-III)

Toolkit of intrinsic creativity (3 hours)

In this workshop, you will learn how to approach ill-posed, incoherent and poorly formulated problems. You will learn and try some useful creativity techniques, some of them old, some of them new, some of them well forgotten.
